Informal and family caregivers	LTC benefits can be used without restriction—including paying family members or less expensive unlicensed caregivers—as long as receiving informal care is appropriate and outlined in the plan of care prepared by a U.S.-licensed health care practitioner.
Qualifications for benefits	• To qualify for benefits, the insured must be certified by a U.S.-licensed health care practitioner to have a severe cognitive impairment or not be able to perform 2 of 6 activities of daily living (ADLs) for at least 90 days; ADLs are bathing, continence, dressing, eating, toileting and transferring • The 90-calendar-day elimination period must be met • Regulations require that a plan of care be prepared by a U.S.-licensed health care practitioner will be created at time of claim² • Regulations require that the LTC claim must be recertified at least every 12 months; this means a U.S.-licensed health care practitioner must recertify the insured's qualifications for claim; an updated plan of care must also be created or confirm the current plan of care is still appropriate
Long-Term Care Benefits Rider	This rider is part of the contract and provides for payment of a monthly benefit to the contract owner when the qualifications for benefits are met. The maximum monthly benefit is equal to the contract value on the date of the first benefit payment divided by the LTC Acceleration Factor. Payment of the monthly benefit will reduce the contract value until the contract value is zero. Thereafter, subject to continued eligibility, monthly benefit payments will continue until the remaining maximum amount of LTC extension benefits payable is equal to zero. The maximum amount of LTC Extension benefits payable is equal to the maximum monthly benefit multiplied by the LTC Extension Multiple.
International benefits	100% of LTC benefits are payable if you reside internationally. ³
Caregiver Advocate	Insureds, contract owners and their immediate family members will have access to this free service, which provides information and references for LTC service providers and community services in their area. There is no obligation to use these services, which are currently provided through a nonaffiliated third party. There is no separate additional charge for this service. This service is subject to availability.

¹ The amount of this charge may vary by state. In California, this is called a surrender charge.

² Nationwide currently has a 3rd-party administrator who can write the plan of care at the time of the claim, but there is no guarantee that this service will always be available.

³ Regulations and qualifications may apply.

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.

Fixed annuities are contracts purchased from a life insurance company. They are designed for long-term retirement goals. Withdrawals are subject to income tax, and withdrawals before age 59½ may be subject to a 10% early withdrawal federal tax penalty.

If you annuitize a nonqualified annuity, a portion of your payment will be considered a return of premium and will not be subject to ordinary income tax. The amount that is taxable will be determined at the time you elect to annuitize the policy. Upon annuitization, LTC benefits terminate unless the LTC Nonforfeiture Rider was elected in the contract, in which case benefits are significantly reduced. Withdrawals also reduce the available LTC benefits.

Nationwide CareMatters Annuity is a cash indemnity product that pays LTC benefits when the insured person is certified to have a qualifying condition and a need for LTC services. Bills and receipts showing actual expenses do not have to be submitted for payment of benefits once a claim has been approved. Each year, the contract owner can receive, tax free, the greater of the HIPAA per diem amount or actual LTC costs incurred. However, benefits may be taxable under certain circumstances. Taxpayers should consult with their tax and legal advisors about their specific situation.

Individual care needs and costs will vary, and there is no guarantee that the long-term care benefits paid under the contract will cover the entire cost of the insured's long-term care. Nationwide pays benefits to the contract owner. If the contract is owned by someone other than the insured, there is no guarantee that the contract owner will use the benefits to pay for LTC services.

All guarantees and benefits of the contract are backed by the claims-paying ability of the issuing insurance company. Contract guarantees and benefits are not backed by the broker/dealer and/or insurance agency selling the policy, nor by any of their affiliates, and none of them makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

Approval for long-term care coverage under the contract and attached riders are subject to underwriting and may require a medical exam.
